Reference: Thistle Property Drainage

MasterCraft Builders, Inc.  
% Nancy Washburn  
5008 Green Bay Road  
Kenosha, WI 53144

Dear Nancy:

I thank you for meeting with Roger Sinnen, Bob Thom, and me on Thursday, April 19, to review the water drainage issue related to the new construction, and the effect it is having on Kendall Thistle's property. It is my understanding from the meeting that you will be working to develop and implement an effective solution to the drainage issue. You indicated that a viable solution is needed because of MasterCraft's long-term investment in the community.

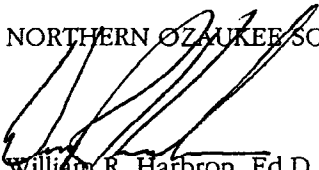

Mr. Thistle has expressed his concern and frustration to the Northern Ozaukee School District and the Village of Fredonia. It is critical that a solution be found and implemented as soon as possible in order to prevent any further damage to the Thistle property.

I request that you keep the Northern Ozaukee School District informed of progress you are making pertaining to resolution and closure of the drainage issue. Please use Roger Sinnen, Buildings and Grounds Director, and Bob Thom, Finance Director, as your direct contacts. Roger and Bob have the authority to act on behalf of the district's interest in finding a solution.

I thank you for your immediate attention to the water drainage issue, and look forward to a positive, expedient resolution.

Sincerely,

NORTHERN OZAUKEE SCHOOL DISTRICT

  
William R. Harbron, Ed.D.  
Superintendent
