I am having a heck of a time scheduling a time that all parties can meet without getting delayed calendar wise. Josh is going to send me any exhibits so that I can do just that. E- Mail them to you. You are going to get answers to your questions from our site walk. Josh will have written summaries and exhibits. If you want to discuss them in greater detail, You will be able to do that by phone. We also will be supplying everyone with a list of recent improvements we have made. And lastly conceptually Josh will discuss areas where we can divert more current school property Stormwater. That will be up to the school to decide how to move forward. He will also have a plan for regarding our south side your northside lot line. I haven't seen it yet, but he tells me it will only be successful if you allow us to blend in our grading in a couple of areas. It vastly improves the Hwy 57 ditch area. That portion of the project is strictly between you and Regency and I think Josh & I could meet with you at a time convenient in the near future. Will try to reach you tomorrow. Nancy

Nancy...

As we shared from your last E-mail about scheduling, 4:00 P.M. works for us. Sorry, Maybe you will have to send us the info.

It would appear based on responses that Tuesday at 8 -9am at the school works for most. I have not heard from Kendall & Carla yet. Please set this time aside. **Agenda:** 1) Josh Pudelko will be discussing questions raised by Thistle's at our walk through. 2) Updated list of work performed recently by Regency Hills to Village Green 3) Discuss & handout exhibits of Hwy 57 ditch re-work & swale along the Thistle property 4) Suggestions from Josh for additional measures that can be taken to divert water away from the Thistle west property boundary. Nancy
